OpenLogic

Enterprise Linux Support

OpenLogic by Perforce makes navigating the Enterprise Linux landscape easy. Regardless of your level of expertise with Linux distributions, our enterprise architects will provide guidance, technical support, and services that can help your team succeed.

How We Support Enterprise Linux

ENTERPRISE-GRADE TECHNICAL SUPPORT

Solve your biggest Linux issues with enterprise-grade technical support delivered directly by experienced enterprise architects. Our architects have over 15 years of experience working in enterprise production applications.

With guaranteed SLAs, unlimited support tickets, and expert advice, OpenLogic is the clear choice for Linux support and services.

LONG-TERM AND TECHNICAL SUPPORT FOR CENTOS 6, 7, AND 8

If you are not ready to migrate off EOL CentOS, keep your deployments secure with long-term support (LTS) for 5 years past community EOL. Our CentOS LTS includes patches for CentOS core packages that fix high severity CVEs.

OpenLogic also offers technical support and professional services for CentOS on all environments, regardless of platform or location. Our Linux experts can help you explore enterprise-viable CentOS alternatives and possible migration paths.

SUPPORTED ENTERPRISE LINUX DISTRIBUTIONS

OpenLogic offers SLAs including 24/7 support for the most commonly adopted Enterprise Linux distributions, including CentOS, CentOS Stream, Ubuntu, Oracle Linux, OpenSUSE, Rocky Linux, AlmaLinux, Fedora, Debian, and more.

- **PROVEN ENTERPRISE EXPERTISE**
- **GUARANTEED SLAS**
- **END-TO-END OPEN SOURCE SUPPORT**
- **TECHNICAL SUPPORT AND LTS FOR CENTOS 6, 7, AND 8**
