

DATASHEET

CentOS 6 Enterprise Support

OpenLogic by Perforce provides extended support for CentOS 6, including enterprise architects on call, as well as patches and bug fixes. This gives teams the freedom to pick the right path forward instead of rushing into the wrong one.

24/7/365 SUPPORT + GUIDANCE

Get around the clock support with 2-hour response times from our Linux experts.

GUARANTEED SLAS

Risk-mitigating SLAs for workaround and standard fixes means you hit your SLOs.

SUPPORT FROM ARCHITECTS

Direct support from our enterprise architects means no wasting time on ticket escalation.

PATCHES AND BUG FIXES

From Spacewalk to private repos, we deliver patches and bug fixes that keep your system secure.

What Does CentOS 6 Support From OpenLogic Look Like?

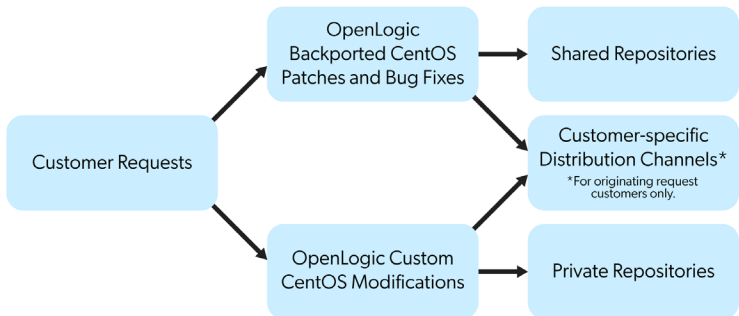

With OpenLogic support, you get direct access to our team of experienced enterprise architects. Guaranteed SLAs mean faster, hassle-free issue resolution for your team.

PATCHES AND BUG FIXES

After package updates are created, we serve the GPG signed files to you via private or shared repositories (both authenticated) or your customer-specific distribution channel.

MIGRATION SUPPORT

When you're ready to move on from CentOS 6, our team can help you to find the right enterprise Linux distribution to fit your needs.

TALK TO AN EXPERT

Set Your CentOS 6 Strategy

Get expert guidance on your path forward with CentOS 6 from our enterprise architects. Talk with an expert today to understand the costs, risks, and rewards of upgrading, migrating, or supporting your CentOS deployment.
