OpenLogic

Extend Your Runway and Stay Compliant With LTS

Having end-of-life (EOL) software in your stack puts your business at greater risk for unpatched vulnerabilities, breaking changes, and audit failures. If you can't upgrade or migrate right away, OpenLogic LTS can bridge the gap and keep your applications stable.

LTS Solutions Overview

Technology	Supported Versions	LTS End Date	CVE Level Patched	Gold-Level Technical Support?
AngularJS	1.5, 1.6, 1.8	December 31, 2030	CVSS score of 4 and higher; SLA for CVSS score 7 and higher	Silver or bronze available
Bootstrap	3.4, 4.6	December 31, 2030	CVSS score of 4 and higher	Bronze available
CentOS	7	December 31, 2029	CVSS score of 7 and higher; SLA for CentOS 7 only	Available
	8	December 31, 2026		
Kafka	3.8	November 30, 2028	CVSS score of 7 and higher	Included at Premium level
	3.9	March 31, 2029		
PHP	7.2, 7.3, 7.4	December 31, 2026	CVSS score of 7 and higher; best effort for CVSS score < 7	Available through Perforce Zend
	8.1	December 31, 2027		
Spring Boot	2.7	October 31, 2027	CVSS score of 7 and higher	Included at Premium level
	3.4 (COMING SOON)	June 30, 2028		
Spring Framework	5.3	October 31, 2027	CVSS score of 7 and higher	Included at Premium level
	6.1 (COMING SOON)	June 30, 2028		
Tomcat	8.5	December 31, 2028	CVSS score of 7 and higher	Included at Premium level

Patch Delivery SLOs and SLAs

- 14 days after disclosure for critical CVEs (CVSS 9 and higher)*
- 30 days after disclosure for high-severity CVEs (CVSS 7 to 8.9)*
- Best effort for medium-severity CVEs (CVSS 4 to 6.9)
- Other CVEs evaluated and patched based on customer demand

*For Zend Server, 30 days after disclosure for critical and high-severity CVEs

Benefits of OpenLogic Long-Term Support

Stay Audit-Ready with documentation to demonstrate compliance

Reduce Risk and Disruption with backported patches from our secure private repo

Upgrade on Your Schedule without being rushed by community support timelines

Why Choose OpenLogic?

Some vendors promise never-ending or endless support, but LTS is not a permanent solution. And when it's time to migrate, you need an expert partner who can make that transition as painless as possible.

For more than twenty years, OpenLogic has provided SLA-backed support for OSS. Our Enterprise Architects can provide unbiased guidance and answer questions about patches, upgrades, integrations, and more. Contact us at www.openlogic.com to discuss your support needs with our team today!
