

Hardened Linux Images

CIS-Benchmarked VM and Container Images CIS Benchmarks™

Deploy, Scale, and Meet Compliance Requirements

Reduce risk, stay on supported versions, and simplify compliance from a CIS-benchmarked baseline (NIST, HIPAA, PCI-DSS, and ISO-27000.)

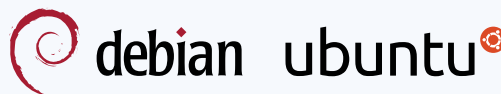

Add 4 Weeks Back to Your Pipeline

Hardened Linux Images allow you to remove the planning, building, and testing tasks out of your day-to-day and add 160 hours back into your calendar.

Avoid Vendor Lock-In and Reduce Costs Up to 40%

Proprietary software subscriptions can lead to paying for things you don't need. Migrate where you want and save up to 40%.
